How to have the confidence to resolve conflict in a non-violent manner? Summer "Safety" Camp 2025

July 21st through July 25th

It only takes seconds for a child without training to be lured into a dangerous situation. As much as you would like to, you can't be with your child every minute of the day to protect them. So how can you teach your children the skills they need to protect themselves without scaring them? **radKIDS** is a comprehensive, foundational safety education program for children (boys and girls) ages 5-7 and 8-12. It focuses on seven core areas:

Home Safety (Including Fire, Gun and Internet Safety)

School Safety (Including Bullying Prevention and Defense)

Out and About Safety (Including Dog Safety)

Vehicle Safety (Cars, buses, bicycles and strangers approaching)

Stranger Tricks (Including Physical Defense Against Abduction)

Personal Safety (Including Good, Bad and Uncomfortable Touch)

Self-Realization of Personal Power

This program is designed to help children recognize potential hazards, and provide them with realistic options for effective response. By empowering them to make positive choices, we hope to enable them to avoid or escape the cycle of violence.
